

**TO:** Transmission Advisory Group (TAG)  
**FROM:** Rich Wodyka  
**SUBJECT:** Requesting Evaluation of an Enhanced Transmission Access Option  
**DATE:** February 13, 2008

The purpose of the Enhanced Transmission Access planning process is to evaluate the means to increase transmission access to potential resources inside and outside the Duke and Progress control areas to serve load in North Carolina; and to increase transmission capability to provide for transactions that go through or out of the Duke and Progress control areas to an external control area. The first step of this process is for the Participants and the TAG members to propose scenarios and interfaces for analysis in 2008. The Planning Work Group (PWG) will review all the proposed scenarios / interfaces and provide the Oversight Steering Committee (OSC) a recommendation on the Enhanced Transmission Access options for analysis in 2008. The OSC will provide feedback to the TAG in April 2008 concerning the Enhanced Transmission Access options to be included in the analysis.

The form to be used by the Participants and the TAG members to propose scenarios and interfaces to be studied is attached and is also posted on the North Carolina Transmission Planning Collaborative (NCTPC) website ( [www.nctpc.org/nctpc](http://www.nctpc.org/nctpc) ) under TAG Working Documents. Please submit only one proposed scenario / interface per form; and e-mail your completed form(s) to Pam Kozlowski at [pkozlowski@gestalt-llc.com](mailto:pkozlowski@gestalt-llc.com) by February 27, 2008. If you have any questions concerning completing the form please feel free to contact either Pam Kozlowski or myself at:
